

GENERAL STATEMENT OF THE COMPANY'S HEALTH AND SAFETY POLICY

It is this company's policy to effect the provisions of the Health and safety at work Act 1974, Management of Health & Safety at work regulations 1999, The construction (Health, Safety and Welfare) regulations 1996, The construction (Head protection) regulations 1989, Construction (Design and Management) regulations 2007, and other relevant legislation and codes of practices etc. These measures are aimed at providing safe and healthy working conditions for our employees and to ensure that the work done by our employees does not adversely affect the health and safety of anyone else, e.g. other contractors or members of the public. We will consult and inform our employees on Health and Safety matters, provide all relevant information to improve safety standards and provide necessary training, or updating training in respect of risks to their Health & Safety, which may arise out of their work or at their workplace. It is our policy to determine the hazards to Health & Safety in carrying out the work of this company, to develop risk assessments, in order to take the necessary precautions and therefore ensure a safe and healthy working environment. We will consult with individual employees before giving them particular Health & Safety responsibilities. In order for this safety policy to be implemented we require the full support of all persons within the company and neglect of Health and Safety matters will be considered as a serious disciplinary matter. This policy will be reviewed annually, or whenever necessary, to comply with changes in legislation or company policy.
